

Ann Kristin Rotegård

Ann Kristin Rotegård, PhD, RN have a candidacy in nursing science- didactics, and her doctoral thesis in nursing science is on Health Assets (people's strengths, resources and empowerment). Her works was awarded with the best poster award at the Verdikt conference, Norwegian Research council, (October 2009) and Distinguished Paper Award at the American Medical Informatics Association Annual Symposium (2005).

She is on the board of the Norwegian Health IT group in the Norwegian Computer Society and a member of the Norwegian Nurses Organizations terminology advisory group. Her special interest is in terminologies and uses of technology to support excellent nursing practice and documentation.

Currently, Ann Kristin is the manager of VAR Healthcare, an evidence based knowledge support- and decision support system containing almost 400 nursing procedures (richly illustrated and animated), with connecting knowledge summaries, knowledge tests, calculators. VAR has integration solutions with EPR systems and digital quality management systems. VAR Healthcare is used in healthcare all over Norway, Denmark and several countries are coming up.

Ann Kristin is the Norwegian representative in the IMIA-NI. She has been on the scientific review committee for NI 2014, the 12th International Congress on Nursing Informatics, which will be held in Taipei, Taiwan and for NI 2016, the 13th International Congress on Nursing Informatics in Geneva.
