

Inaugural Class of IAHSI – 2017

Rada Hussein

Dr. Rada Hussein, founder and former director of the Biomedical Informatics Center of Excellence (BMICoE) at Information Technology Institute (ITI) adopted the knowledge triangle model (research, education, and innovation) for advancing the Biomedical and Health Informatics discipline in Egypt. She serves as a global health informatics expert, an associate editor at the Journal of Medical Systems, a reviewer for the AMIA annual symposium, and a member of the IMIA nominating committee.
