

Class of IAHSI - 2023

Usman Iqbal

Dr Usman Iqbal is a Senior Clinical Data Consultant at the Department of Health, Tasmanian State Government, Australia. He is an Adjunct Associate Professor at Faculty of Medicine and Health, University of New South Wales (UNSW), Sydney, Australia and Visiting Associate Professor and Digital Health Consultant at Taipei Medical University, Taiwan.

He has led and co-founded Taiwan's Observational Health Data Science and Informatics (OHDSI) chapter and served as Committee Member for Standing Committee on Practice and Standards at the International Health Literacy Association (IHLA). He is co-Editors-in-Chief of Computer Methods and Programs in Biomedicine-Update, and also holds editorial positions for several journals, including International Journal for Quality in Health Care, Computer Methods and Programs in Biomedicine, and BMJ Healthcare and Informatics. Driven by a passion for improving healthcare outcomes, he has led various innovative approaches utilising Health Information Technology for patient safety, including telemedicine and global health informatics to improve the quality of care and advance the clinical application of Artificial Intelligence research.
