

Inaugural Class of IAHSI – 2017

Peter Szolovits

[Peter Szolovits](#) is Professor of Computer Science and Engineering at MIT and Professor of Health Sciences and Technology in a joint MIT-Harvard program. His research focuses on decision support by prognostic modeling, natural language processing, and machine learning to gain insights from heterogeneous information. He is a member of the U.S. National Academy of Medicine, Fellow of AAI, ACMI, AIMBE and IAHSI, and the 2013 recipient of the Morris Collen Award of Excellence from ACMI.
