

Inaugural Class of IAHSI – 2024

Shyam Visweswaran

Shyam Visweswaran, MD, PhD, is a Professor of Biomedical Informatics at the University of Pittsburgh with cross appointments in the Clinical and Translational Science Institute and the Intelligent Systems Program at the School of Computing and Information. His training is in biomedical informatics, artificial intelligence (AI), and clinical neurology, and his research interests include the application of AI to biomedicine with a specific focus on AI-based clinical decision support, patient-specific modeling, and racial fairness in clinical algorithms. In the Department of

Biomedical Informatics, he is Vice-Chair of Clinical Informatics and the Director of the Center for Clinical Artificial Intelligence, which focuses on developing, implementing, and evaluating high-performance clinical decision support powered by AI. He serves as the Director of the Informatics Core for the University of Pittsburgh Clinical and Translational Science Institute (CTSI), is one of the Principal Investigators for the All of Us Pennsylvania research project that is a component of the national All of Us Research Program and is one of the Principal Investigators of the Evolve to Next-Gen Accrual of patients to Clinical Trials (ENACT) network. He is a Fellow of the American College of Medical Informatics (FACMI), a Fellow of AMIA (FAMIA), and a Fellow of the Australasian Institute of Digital Health (FAIDH).
